

Warranty Certificate

Panel land s.r.l. offers warranty for the manufacture of their products :

PVC/ HPL/HDF FLAT PANELS

GLUEING – 10 YEARS WARRANTY

*COLOUR – 10 YEARS WARRANTY**

*FOILING – 5-7 YEARS WARRANTY ***

The warranty is granted only in accordance with the following instructions for maintenance, transport, storage ,handling, processing and assembly.

The warranty does not cover damages caused by improper maintenance or negligence in operations of the products, defects or damages caused by plumps, hits and cracks of the products.

The warranty does not cover damages caused by fires, earthquakes, floods or other natural disasters

**the warranty for the colour change of the white sheets is offered by the manufacturer of the sheets with specification as the colour changes can occur if the sheets are used outside the temperate climate between the latitudes of 45-55 ° in this case the ratio of the colour change(in comparison with the original colour) is $dE \leq 5$ si $db \leq 3$*

***ACCORDING TO ANNEX 1*

Instructions:

-To store only on flat surfaces, horizontal, in warehouses protected from dampness and solar radiation.

-To avoid contact with aggressive substances such as (solvents, acidic or caustic substances, oils, petroleum products)

-Shall not step on the panel surface

-Avoid contact with other contodente materials to avoid scratching the surface.

-Protective foil is removed after installation.

-To cut only with the circular saw for PVC – the fret-saw must have negative angle FI300-64 teeth.

-The manual handling is done with good care so as not to be affected in any way their features.

-The automatic Handling with the forklift or other lifting device must be done in such a way as the lifting device blades do not damage the edges of the panels.

-When the carriage is performed with the wooden pallet, the edges and corners of the sheets must be protected with corners, covered with foil, and anchored with straps. The straps must not have direct contact with the edges of the sheets and there must be wooden corners to avoid bending the last pieces on the pallet.

-The carriage in case when the products are not packed on the pallet must be made with special care at their anchor, the straps, in this case, must be across a wooden corner of wood or over pieces of polystyrene to protect the edges.
