

AVENTOS HK-XS

Small fitting, great convenience

Technical data sheet

www.blum.com

 **blum**®

- well suited for wall cabinets and larder units
- cabinet heights of 240 to 600 mm
- Interior depth of 100 mm minimum
- closes silently and effortlessly in conjunction with CLIP top BLUMOTION hinges
- can be combined with TIP-ON to open handle-less fronts
- Well-balanced quality of motion due to light operating forces, a variable stop and BLUMOTION
- Simple and predominantly tool-free assembly and easy adjustment
- Symmetrical lift mechanism – can be used on one or two sides
- High-quality design

Power factor LF = cabinet height KH (mm) x front weight incl. double handle weight (kg)

□ Standard

■ TIP-ON

Note: the power factor is doubled when used on two sides

A trial application is recommended when you are in a borderline area of the individual lift mechanism.
